Wanica, Suriname

About Me

I am a talented, ambitious and hardworking person, with broad skills and experience in web design & development.

I am also adept at performing multiple tasks on a daily basis and can work well under pressure.

An important force is communication; building strong relationships with people to deliver the best results.

Experience

Software Developer

Oct 2019 - Oct 2020

Cerebellum NV, Paramaribo

- Develop and present ideas for improving software programs
- Produce detailed solution specifications
- Transferring information about newly programmed functionalities within the software programs (knowledge transfer)
- Write well-designed, efficient code
- Testing the software programs in controlled real-life situations
- Maintenance and support of the software programs once they are operational
- Writing accompanying documentation about the software, both for end users and technicians who need to work with it
